

Junior High School & Main Street

Main Street Street
Hingham, MA

A short loop trail meanders through the pine forest and is accessible from the back of the Junior High School. Along this trail you find several bench areas for outdoor educational opportunities as well as access to Accord Brook. These trails link to a forest road off a Main Street that was recently acquired by the Town and is managed by the Department of Public Works. There are several potential vernal pools along the link behind the Junior High School and the Main Street property.
