

Plymouth River Complex

Plymouth River Conservation Land, Ward Street
Hingham, MA

The Plymouth River Complex is a 93 acre tract that includes three sections. The northern section, with an athletic field, six tennis courts, a small pond and some wooded upland around Plymouth River Schools is controlled by the School Department. The Recreation Commission has recently built a playing field in the center area. The Conservation Commission holds the southern section including open woods and marsh bordering the upper reaches of Cushing Pond.

Access to the Plymouth River Conservation Land is best obtained off of Ward Street. The trail entrance is located adjacent to the northernmost recreational fields. Access is also available through the Plymouth River Elementary School. The trail connection from the Elementary School provides a series of interpretative signs describing the park’s flora and fauna. Foot access can also be obtained via Camelot Drive.

The Plymouth River Conservation trails provide access to multiple recreational opportunities. These include hiking along narrow wooded trails, views of the Plymouth River, benches, wildlife viewing, and fishing. The Conservation area is open dusk to dawn. Deer hunting is allowed on this property between October 19 and November 28. Special permit by the Conservation Commission is required for this activity.
